For 2026, the Toyota sports car lineup is getting brighter with the GR86 Yuzu Edition. This vibrant exterior color is a nod to a memorable special edition of GR86's predecessor, the Scion FR-S Release Series 1.0. Based on the GR86 Premium grade, the special edition will feature 18-inch matte–black wheels and other stunning

black accents throughout the vehicle. On the inside, the Yuzu edition features a black interior with yellow accents. Customers will find black Ultrasuede® – trimmed sport seats with yellow perforation and yellow stitching on the steering wheel, parking brake handle, and door trim.
