The 2026 Toyota C-HR Battery Electric Vehicle (BEV) is a bold EV with cutting-edge style and a performance-inspired spirit. With an impressive 338 horsepower net combined system output and standard All-Wheel Drive, it has a manufacturer estimated 0-60 mph time of 4.9 seconds. The C-HR couples its dynamic drive with a

coupe-like design, a well-appointed interior, and up-to 25.3 cubic feet of rear cargo space behind the rear seats. It also has flexible charging options, with DC fast charging and Level 2 AC charging capabilities. The 2026 C-HR BEV is expected to arrive at Toyota dealerships in March 2026.
