The 2026 Toyota bZ Woodland is the all-electric Toyota that’s made for life in the great outdoors. With standard All-Wheel Drive and 375 hp combined system output it brings power and utility that’s made for the weekend warrior. Its generous rear cargo area of over 30 cubic feet, 8.4-inch ground clearance, Panoramic View Monitor

with Multi-Terrain Monitor, and 3,500-pound towing capacity are ready for that next trailhead. It is equipped with a North American Charging System (NACS) port for access to thousands of DC fast charging stations and can also charge on Level One and Two AC power sources. With a well-equipped interior with standard SofTex-trimmed seating, 14-inch Toyota Audio Multimedia touchscreen, dual wireless Qi charging, ambient lighting and available All Terrain tires, the bZ Woodland just might be the best way to electrify your next adventure.
