The 2026 Toyota RAV4 kicks off the sixth generation of America's best-selling compact SUV and joins Toyota's ever-growing list of all-electrified models. This all-new RAV4 is equipped with the latest Plug-in Hybrid Electric Vehicle (PHEV) system that has an increase in all electric driving range to a manufacturer

estimated 52-mile range rating. The RAV4 PHEV is available in Sport or Rugged design styles. The SE, XSE, and GR SPORT grades make up the Sport options and the Woodland grade has the Rugged look. The RAV4 GR SPORT PHEV debuts the first-ever GR SPORT model in the U.S., designed in collaboration with the TOYOTA GAZOO Racing Company and is an expression of sporty driving and passionate design. Also joining the PHEV lineup is the RAV4 Woodland, which brings outdoor-ready good-looks and a powerful electrified drive. The new RAV4 also launches new versions of the Toyota Audio Multimedia system and Toyota Safety Sense active safety suite.?
