

Toyota Motor Manufacturing, Kentucky (TMMK) Fact Sheet

July 12, 2021

About Toyota Motor Manufacturing, Kentucky, Inc. (TMMK)

Toyota Motor Manufacturing, Kentucky, Inc. (TMMK) is Toyota's largest vehicle manufacturing plant in the world, annually capable of producing 550,000 vehicles and more than 600,000 engines. Toyota broke ground in Georgetown, KY., in May of 1986 and two years later (May 1988) produced its first Camry. Since then, more than 12 million vehicles have rolled off Toyota's assembly lines in Kentucky, where full-time employment is more than 8,000. In addition to the Camry, America's best-selling car, TMMK manufactures the Camry Hybrid, Avalon, Avalon Hybrid, RAV4 Hybrid, Lexus ES 300h and Lexus ES 350, as well as four-cylinder and V-6 engines. Toyota has invested more than \$133 million to various philanthropic and educational initiatives since 1988.
