Toyota Recalls Certain Tundra, Tundra HEV and Sequoia Models

October 01, 2025

PLANO, Texas (Oct. 1, 2025) — Toyota is conducting a noncompliance recall involving certain MY2022-2025 Toyota Tundra and Tundra hybrid models and certain MY2023-2025 Sequoia vehicles. Approximately 394,000 vehicles are involved in this recall in the U.S.

The software in the 14-inch multimedia center display in these vehicles could cause the display to show a half green, full green, or full black screen. If this occurs while the vehicle is being reversed, the vehicle may not meet a federal safety standard and there can be an increased risk of a crash with a person behind the vehicle.

Toyota dealers will update the multimedia display software, free of charge.

For all involved vehicles, Toyota will notify customers by late-November 2025.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit Toyota.com/recall or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331).
