Toyota Recalls Certain MY2025 Toyota Sienna Models

October 07, 2025

PLANO, Texas (Oct. 7, 2025) — Toyota is conducting a safety recall involving certain MY2025 Sienna vehicles. Approximately 55,000 vehicles are involved in the recall for the U.S.

The subject vehicles contain second-row seats that are mounted on seat rails that may have been improperly welded. If these seats are occupied during certain high-speed collisions, the seat may lose structural integrity, increasing the risk of injury.

All known owners of the subject vehicles will be notified to return their vehicles to a Toyota dealer. For all involved vehicles, the dealer will replace the second-row seat rails with rails that have proper welding, free of charge.

For all involved vehicles, Toyota will notify customers by early December 2025.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit Toyota.com/recall or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331).
