The 2026 Toyota Sienna keeps rolling with its 100% hybrid lineup, a choice of Front- or All-Wheel Drive, and a fantastic combination of style and functionality. For 2026, this efficient minivan simplifies choice by making previously optional features standard on select grades. The entry level LE grade adds value with new standard

features like an 8-speaker audio system, power rear door, rear window shades, and power tilt/slide moonroof. The XSE model also gets an audio upgrade with a JBL™ Premium Audio system with 12-speakers, subwoofer, and amplifier now standard. While the LE, XLE, XSE, Limited, and Platinum grades now have the option for Heavy Metal exterior paint. With 245 total system horsepower, and up to a manufacturer-estimated 36 combined MPG fuel economy rating, the 2026 Sienna is the winning choice for efficiently getting the whole crew around in style.
