# Toyota Recalls Certain Toyota Tundra and Tundra Hybrid Vehicles

January 23, 2026

**PLANO, Texas (Jan. 23, 2026)** — Toyota is conducting a safety recall involving certain model year 2024-2025 Toyota Tundra and Tundra Hybrid vehicles. Approximately 162,000 Toyota vehicles are involved in this recall in the U.S.

Under certain circumstances, the multimedia display may become stuck on a camera view or display a black image in the subject vehicles. If this occurs, the rearview image may not be displayed while the vehicle is being reversed. In this case, the vehicle may not meet a federal safety standard, and there can be an increased risk of a crash with a person behind the vehicle.

For all involved vehicles, dealers will update the Parking Assist ECU software, free of charge.

Customers will be notified about this issue by late-March 2026.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit Toyota.com/recall or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331).
