Toyota’s Corolla plant in Blue Springs, Mississippi is featured in the national *Built in America*? series, highlighting the people, technology, and craftsmanship behind American manufacturing.

The documentary style show highlights companies that manufacture in the U.S. and offers an inside look at Toyota Mississippi and its exclusively assembled Toyota Corolla by a team of more than 2,400 employees. The series captures the care, the precision, and the people behind one of the world’s best-selling vehicles.

Viewers will travel beyond the plant floor to experience the impact Toyota Mississippi continues to have across the state. Through career development, community investment, and strong local partnerships, Toyota helps create opportunity and support the communities where its team members call home.?

Check out this *Built in America* series to see how advanced manufacturing, innovation, and teamwork come together in Blue Springs, Mississippi to bring the Toyota Corolla to life. Watch video below.
