PLANO, Texas (June 19, 2026) – Toyota announced executive changes to its manufacturing, supply chain, and financial services operations designed to better serve its customers, drive continued growth, and advance its commitment to building where it sells.

Retirements

Ellen Farrell, group vice president and executive advisor, Toyota Financial Services (TFS), will retire in August. For over 25 years, Farrell has provided legal guidance that advanced and protected Toyota's interests. Prior to her current role, she served as TFS chief legal, compliance and administrative officer, and TFS and Toyota Motor North America chief respect for people officer. Farrell was instrumental in establishing the TFS private label line of business that propelled financial services growth. Her contributions extended well beyond the legal sphere thanks to her roles as vice president of sustainable development and later chief respect for people officer.

Kerry Creech, group vice president, Region 1, TMNA, and Toyota Motor Manufacturing Kentucky (TMMK) president, will retire in July after 36 years with Toyota. During his tenure, Creech held numerous leadership roles across manufacturing, quality, and engineering, ultimately leading TMMK and overseeing significant operational growth and investment. His leadership helped drive new investments supporting electrification and advanced manufacturing initiatives. He also made meaningful contributions to workforce development and the community through initiatives like the 4T Academy. He started his career as a powertrain production team member at TMMK in 1990.

Promotions and New Assignments

Manufacturing

Stephen Brennan, senior vice president, Region 1, Manufacturing Operations & Manufacturing Business Operations (MBO), will be assigned to Toyota Motor Corporation (TMC) as chief production leader of the Advanced Technology Area.
