Toyota Recalls Certain Model Year 2026 Toyota Grand Highlander and Lexus TX vehicles

July 08, 2026

PLANO, Texas (July 8, 2026) — Toyota is conducting a safety recall campaign involving certain model year 2026 Toyota Grand Highlander and Lexus TX vehicles in North America. Approximately 5,400 vehicles are involved in this recall.

The rear axle carriers in the subject vehicles may not have been manufactured properly. A carrier can break at a certain attachment point which can affect rear vehicle stability, increasing the risk of a crash in some operating conditions.

All known owners of the subject vehicles will be notified to return their vehicles to a Toyota or Lexus dealer. For all involved vehicles, the dealer will inspect the rear axle carrier sub-assemblies for specific codes. Affected sub-assemblies will be replaced at no charge.

Owners of involved vehicles will be notified by early-September 2026.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today’s filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit Toyota.com/recall or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331).
