Honoring a rich legacy while embracing the future, the 2027 Toyota Corolla Hybrid brings modern efficiency and effortless style to an iconic nameplate. This year, the lineup is headlined by the 60th Anniversary Special Edition. Limited to just 2,500 units and built on the dynamic SE Hybrid grade, this commemorative model

perfectly blends Corolla’s renowned fuel efficiency with an aggressive, athletic stance, featuring exclusive 18-inch machined, black-finished alloy wheels and custom badging. The broader 2027 Corolla Hybrid family, available in LE, SE and XLE grades, is powered by the fifth-generation Toyota Hybrid System (THS 5). Pairing a 1.8-liter 4-cylinder engine with an electronically controlled Continuously Variable Transmission (ECVT), it produces 138 net combined horsepower. With available Electronic On-Demand All-Wheel Drive and a manufacturer-estimated rating of 53 city/46 highway/50 combined MPG for the Hybrid LE FWD and XLE grades, it delivers a smooth, responsive and highly efficient driving experience.
