The 2027 Toyota Grand Highlander is the large SUV that puts space and choice at the top of the menu. With up to 97.5 cubic feet of rear cargo room with the rear seats folded flat and a third row that’s ready for adults or kids, it’s ready to take the crew around the corner or on your next long haul road trip. It’s available in three different

powertrains – an efficient 2.5L hybrid, a 362 total system horsepower Hybrid MAX, or a well-balanced 2.4L turbo gas option. Front- or all-wheel drive is also available, depending on grade. For Hybrid models, Woodland Edition joins the lineup in 2027 alongside the LE, XLE, and Limited grades. The Hybrid MAX powertrain is exclusively available on the Platinum grade. Gas grades include LE, XLE, Limited, and Platinum.
