Torrance, Calif., Jan. 11, 2016 – Baker Skateboards, under its partnership with Scion, hit the road in a brand new iM and iA for a demo at their favorite park in San Francisco. They stopped along the way not only to shred a few local spots, but to ride along with professional drift racer Ken Gushi in a Scion FR-S release series 1.0. Watch the video here: <https://www.scion.com>

Scion sponsored Baker's national tour earlier this year, and will release an EP of Baker's favorite tunes early in 2016. Two of the songs from the EP are featured in the videos released today.
