

Three Reasons You Should Be Driving a Hybrid

August 07, 2014

You don't have to be a pious Prius driver (but it sure helps) to enjoy the benefits of hybrid technology.

3. **Help others breathe a little easier.** Since 2000, the Prius family of vehicles has saved an estimated 26.5 million tons of CO₂ emissions in the U.S.
2. **Save gas.** Prius family owners could drive around the earth 4.39 million times with the fuel saved.
1. **Save gas *money*.** Over the last 14 years, the Prius family (compared to an average car) has saved Americans about \$5 billion in fuel costs.
