

# Toyota Motor Corporation Vehicles Continue to Dominate the 2013 J.D. Power and Associates Vehicle Dependability Study

February 13, 2013

TORRANCE, Calif., Feb. 13, 2013 – Seven Lexus, Toyota, and Scion models captured segment awards in the 2013 J.D. Power and Associates Vehicle Dependability Study, more than any other automaker.

The study also found:

- Lexus ranks highest in vehicle dependability for the second consecutive year by improving 15 fewer problems/100;
- The Lexus RX is the first SUV to lead the industry with the fewest reported problems at just 57 problems/100; and
- Toyota is the highest ranked non-premium nameplate and tied for third place for the second consecutive year

## 2013 Vehicle Dependability Study performers by segment
