

# 1974-1975 Toyota Corona Interior 003

February 17, 2011

BRAINY TOYOTA -- Standard on the all-new 1974 Corona SR and two-door Corona Hardtops is this unique Electro Sensor Panel (ESP), a fault-detection system that monitors 11 of the car's major functions. Electronic sensors located in areas vital to safe operation are connected to a roof-mounted display panel of lights that alert the driver to such things as thin brake lining, low fluids, excess heating
