

2010 SEMA Show - Scion xB All Stretched Out by Cartel 004

February 17, 2011

All Stretched Out Cartel xB

Inspiration of project "All Stretched Out" came from the whole VIP buzz. Each time Jeremy starts a project from start to finish, he knows one major factor that never lets him down - design changes on a daily basis. With that said, Jeremy believes what one envisions in his or her mind sometimes just doesn't look right and you have to move onto plan B. So what he does is take all these crazy ideas and apply them to what he likes to call the DB (Design Bank) waiting to cash out on it with the next project.

Major Highlights that make this build unique is that it's a new twist of a custom LIMO design. Jeremy's builds always focus on maximum brand visibility. It's been stretched 48" with an 80" dual suicide door entry. This style build makes for a great display car for interaction with its consumers and end users.

2010 CARTEL Build Team:

Jeremy Lookofsky (CARTEL KING), Dominick Vitelli (Quality Coach), Josh Villepigue, & Pauly Riviera

POWERTRAIN
