

2019 Toyota Tundra

September 26, 2019

The 2019 Toyota Tundra, assembled in the heart of truck country in San Antonio, Texas, knows that leaving the jobsite doesn't mean the end of the workday for a pickup. Led by the available 5.7L i-FORCE V8 engine that offers up to 10,200 pounds of towing capacity and a maximum payload of 1,730 pounds, Tundra is ready to tackle the jobsite, a weekend cruise to the lake, or the multi-state family road trip. Available in Double Cab and CrewMax cab lengths, Tundra is offered in a range of configurations. Toyota's TSS-P active safety system is standard on all grades.
