

# 2020 Toyota 86

October 03, 2019

The thrill of driving a superbly balanced, track-tuned sports car never goes out of style, especially when it's as stylish as the Toyota 86. With 205 horsepower moving about 2,800 pounds and sophisticated suspension coupled with an ultra-low center of gravity, the 86 delivers an unabashedly authentic and athletic experience in a 2+2 sports coupe at a price starting under \$27,000. For 2020, Toyota piled on greater agility, tech and style to make the 86 an even more compelling machine.
