The Toyota Avalon marks its 25th year for 2020. The fifth-generation Avalon, introduced for 2019, came on strong with a striking new coupe-like design built around the advanced Toyota New Global Architecture (TNGA). The high-strength TNGA is the ideal foundation for an exceptionally athletic luxury-sport sedan, and

the Avalon XSE grade offered the first glimpse of such capability. Now, for 2020, the Avalon TRD – which joins the 2020 Camry for the debut of the first-ever Toyota sedans to wear the TRD badge – is for the driver who wants even more aggressive road grip.
