

2021 Toyota Supra

February 13, 2020

Image not found or type unknown

A year after it's world debut, GR Supra is back for 2021 with more horsepower and a four-cylinder option. The 3.0 and 3.0 Premium grades will now boast 382 hp from its 3.0-liter inline six-cylinder engine, and for the first time in the U.S., Supra will come with an available turbocharged 2.0-liter four-cylinder in the 2.0 grade.

Additionally, 1,000 special A91 Editions will be produced. The 2021 GR Supras will be on sale starting in summer 2020.
