

# Toyota Motor Manufacturing, Missouri (TMMMO) Fact Sheet

March 17, 2020

**President:** Wes Woods

**Groundbreaking:** 1991

**Start of Production:** 1993

**Investment:** \$455 million

**Plant Sites:** 75 acres

**Plant Sizes:** 550,000 sq. ft.

**Employment:** 900

**Products:** cylinder heads

**2019 Production:** 2.8 million cylinder heads

**Operations:** low pressure casting, core making, die making

**Impact on Missouri:** The Center for Automotive Research (CAR) conducted a study based on 2015 data and found:

- Direct employees (manufacturing-related and new vehicle jobs) earned \$476 million in payroll
- After taxes, their disposable personal income totaled \$356 million, meaning that money was available to be spent in the Missouri economy
- When those direct employees are combined with jobs at companies that supply TMMMO as well as spinoff jobs, Toyota is estimated to support 10,000 jobs in Missouri

**Community investment:** Toyota has donated more than \$2.7 million to local non-profits in Missouri to meet critical needs and improve the quality of life in our plant communities.

### **Key Dates**

- 1912: Jesse R. Bodine founds the Bodine Pattern Company in St. Louis, Mo. to manufacture patterns for various customers, including Dorris and Moon Motor Cars.
- 1935: Bodine enters the foundry business and becomes known as a quality aluminum casting facility.
