

Toyota is conducting a safety recall involving certain Toyota vehicles

April 08, 2020

TOYOTA

PLANO, Texas (April 8, 2020) – Toyota is conducting a safety recall involving certain 2020 Model Year Corolla Hatchback vehicles in the United States. Approximately 1,000 vehicles are involved in this recall.

A connector in the rear hatch of the subject vehicles may have been damaged during production. As a result, the backup lamps may become inoperative over time. If backup lamps do not illuminate when the vehicle is operated in reverse, there can be an increased risk of a crash.

For all involved vehicles, Toyota dealers will replace the rear hatch wire harness with a new one at no cost to customers.

Owners of involved vehicles will be notified by early June 2020.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit Toyota.com/recall or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For the most up to date information surrounding recalls visit nhtsa.gov/recalls. For any additional questions, customer support is also available by calling the Toyota Customer Experience Center at 1-800-331-4331 or the Lexus Guest Experience Center at 1-800-255-3987.
