

2021 Toyota Avalon

July 15, 2020

The fifth-generation Toyota Avalon, introduced for 2019, came on strong with a striking new coupe-like design built around the advanced Toyota New Global Architecture (TNGA). The high-strength TNGA is the ideal foundation for an exceptionally athletic luxury-sport sedan, and the Avalon XSE grade offered the first glimpse of such capability. Now, for 2021, the Avalon gets an All-Wheel Drive option for the first time ever. The Avalon XSE Nightshade also makes its debut for 2021, and all grades of Avalon get Android Auto compatibility.
