

2021 Toyota RAV4

October 08, 2020

Very few vehicles have the capacity to be both a segment leader and a segment disruptor – but the fifth-generation Toyota RAV4 has managed to achieve just that. The latest RAV4 continues its bold leadership moves for 2021 by adding the XLE Premium model to the hybrid lineup at a starting MSRP of \$32,500. Additionally, for the RAV4 TRD Off-Road, a new TRD-stamped stainless steel front skid plate has been added for 2021.
