

# Keith Robertson

Keith Robertson is group vice president of Supply Chain Management (SCM) where he is responsible for facilitating North America's sales and production plans, managing vehicle logistics and coordinating vehicle model change activity. Robertson oversees North America's vehicle supply chain operations, including Demand and Supply Management (DSM), Project Planning and Management (PPM), and Toyota Logistics Services (TLS).

Robertson most recently served as vice president of DSM and managed various functional areas responsible for adjustments in production and sales pace. Previous roles include general manager of production control at Toyota Motor Manufacturing, Kentucky; general manager of production planning at Toyota's engineering and manufacturing organization; and general manager of production control at Toyota Motor Europe.

Since joining Toyota in 1993 at its Georgetown, Kentucky assembly plant, Robertson has held positions at both the plant and the company's engineering and manufacturing organization in production control, project planning and management, corporate strategy and purchasing.

Robertson holds a Bachelor's of Science Degree in Engineering and a Master of Business Administration Degree both from Clemson University.
