

Toyota is conducting a safety recall involving certain 2020 model year Toyota Highlander and Highlander Hybrid vehicles

October 14, 2020

TOYOTA

PLANO, Texas (October 14, 2020) – Toyota is conducting a safety recall involving certain 2020 model year Toyota Highlander and Highlander Hybrid vehicles in the U.S. Approximately 3,100 vehicles are involved in this recall.

There is a possibility that one or both of the front seats in the subject vehicles were equipped with an incorrect trim cover. If these trim covers are incorrect, the cover could prevent the seat-mounted side air bag from deploying properly when the air bags are commanded to deploy, increasing the risk of injury in the event of a crash.

For all involved vehicles, Toyota dealers will inspect the trim covers installed on the front seats and replace any

incorrectly installed trim covers with correct one(s) if necessary.

Owners of involved vehicles will be notified by the middle of December.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit Toyota.com/recall or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For the most up to date information surrounding recalls visit nhtsa.gov/recalls. For any additional questions, customer support is also available by calling the Toyota Brand Experience Center at 1-800-331-4331.
