

2021 Toyota Sienna 2021 Wins Family Green Car of the Year™

November 24, 2020

PLANO, Texas (November 24, 2020) – The 2021 Toyota Sienna is now the Family Green Car of the Year thanks to winning that category in the 2021 Green Car Awards™. With a standard hybrid powertrain across all trims and an array of new tech and amenities, the 2021 Toyota Sienna raises the bar for style, safety, comfort, versatility and fuel efficiency in its segment.

“The fuel efficiency of this all-new 2021 Sienna makes it a cut above the rest,” said Bob Carter, Toyota Motor North America’s (TMNA) executive vice president of sales. “This award just further highlights our dedication to hybrids in North America and we’re humbly honored to have the new Sienna be recognized as the Family Green Car of the Year for 2021.”

The fourth-gen Sienna, designed by the combined effort of CALTY’s Newport Beach, CA and Ann Arbor, MI studios, delivers a combination of room, comfort, convenience, fuel efficiency and versatility. The 2021 Sienna’s Toyota Hybrid System II delivers 245 total horsepower and an EPA-estimated 36 combined MPG fuel economy, the latter setting a benchmark for the segment, all while operating seamlessly and transparently.

The 2021 Green Car of the Year® award winners were selected by a highly-respected jury comprised of energy and environmental leaders including Mindy Lubber, president of CERES; Jean-Michel Cousteau, president of

Ocean Futures Society; Dr. Alan Lloyd, president emeritus of the International Council on Clean Transportation and senior research fellow at the Energy Institute, University of Texas at Austin; Clay Nesler, interim president of the Alliance to Save Energy; and Matt Petersen, president and CEO of Los Angeles Cleantech Incubator and advisory board chair of Climate Mayors. Celebrity auto enthusiast Jay Leno and Green Car Journal editors rounded out the Green Car of the Year® jury.
