

# Manufacturing in the U.S.

April 23, 2021

Image not found or type unknown

Toyota's manufacturing facilities are the heart of all we do. It's where our design, engineering, research and development are realized. Throughout the U.S., thousands of highly skilled team members have assembled more than 34 million cars and trucks across our 11 manufacturing facilities, including a new battery plant in North

Carolina and a joint venture with Mazda in Alabama.
