

Your Guide to Everything Announced During the Toyota New Product Showcase

June 04, 2021

The U.S. debut of an all-electric SUV concept. The expansion of the Corolla lineup with the 2022 Toyota Corolla Cross. Toyota's new product showcase provided a first look at the 2022 Toyota lineup, offering a combination of style, versatility and performance. Whether you're off-roading in a Tacoma, hitting the pavement in a 4Runner, or hugging the mountain curves in a Supra, Toyota's newest vehicles seamlessly integrate innovative design and technological advancements.

Take a look at the latest Toyota product news announced this week.

2022 Toyota Corolla Cross

For more than 50 years, Corolla has been synonymous with dependability, fuel efficiency, safety and value – and Toyota is evolving the series even further. Based on the ever-popular Corolla sedan, the all-new 2022 Corolla Cross, which made its U.S. debut this week, is the bold compact crossover you didn't know you needed until now. Available in front-wheel drive (FWD) and all-wheel drive (AWD), the compact SUV maximizes the inherent potential of the high-strength TNGA-C platform and a 169-horsepower, 2.0-liter Dynamic Force Engine, enabling the all-new model to achieve high-quality performance, a comfortable ride and outstanding spaciousness. What's more, the surprising cargo capacity gives it the versatility to accommodate life's adventures.

Toyota bZ4X Concept

The Toyota bZ4X Concept touched down to make its North American debut at Toyota Motor North America's headquarters. Already a leader in electrification, the company has taken a major step forward with the introduction of the Toyota bZ4X Concept, the vision for the first of a global series of battery-electric vehicles to be introduced under the "Toyota bZ" brand umbrella. Jointly developed with Subaru, the Toyota bZ4X SUV Concept features the new e-TNGA BEV-dedicated platform. The concept conveys Toyota's legendary quality, durability and long-term reliability (QDR) in combination with AWD capabilities to achieve a driving experience that is both comfortable and engaging.

2022 Toyota Tacoma TRD Pro

When it comes to true off-road performance, taking the trail less traveled isn't suited for amateurs. That's where TRD Pro comes in. From the beginning, TRD Pro vehicles were designed to take off-road performance to the next level using parts designed and tested by the Toyota Racing Development team. The Tacoma TRD Pro is taking the next step in its evolution. For the 2022 Tacoma TRD Pro, off-road performance goes up a notch – literally! The next-generation Tacoma TRD Pro will employ TRD-tuned Fox internal bypass shocks designed to deliver exceptional on- and off-road performance, but the crucial suspension change will be a taller suspension lift – 1.5 inches up front and 0.5 inches at the rear.

2022 Toyota Tacoma Trail Edition

Modern times require modern vehicles and, arguably, one theme rises above the rest for vehicle attributes: versatility. One of the greatest multi-purpose vehicles on the market is the mid-size pickup truck leader, 16 years and running, the Toyota Tacoma. First introduced last year, the Tacoma Trail Edition returns with an emphasis on storage, styling, value, and a focus on off-road performance built around the Tacoma 4×4 Double Cab.

2022 Toyota 4Runner TRD Sport

As a Toyota lineup mainstay for nearly 40 years, the Toyota 4Runner has carved out its place as the do-anything SUV that's at home whether on the pavement or the trail. For 2022, the 4Runner lineup expands with the addition of TRD Sport, offering an exceptional combination of style and performance. Similar to its mid-size truck sibling the Tacoma, 4Runner adds TRD Sport grade to complement TRD Off-Road and TRD Pro, but where TRD Off-Road and Pro add trail-ready features designed for tackling the toughest terrain, TRD Sport looks to add style, flair and some road-worthy upgrades.

Teammate Advanced Drive Backgrounder

Teammate® advanced driver assistance technology is a SAE Level 2 system, based on Toyota’s Mobility Teammate Concept, that provides two functions: Advanced Drive and Advanced Park. Teammate’s Advanced Drive function was designed to partner with and assist the driver to promote safe and convenient while driving on the highway. When activated, Advanced Drive enables automatic steering, acceleration and braking on the highway under active supervision of the driver. It can also perform more complicated driving tasks, including maintaining a set distance between other vehicles, changing lanes, merging and passing or “overtaking” other vehicles.
