

# Toyota Motor Manufacturing, Tennessee (TMMTN)

March 24, 2022

Toyota Motor Manufacturing, Tennessee (TMMTN) builds engine blocks for cars, SUVs and trucks assembled in North America. The plant's more than 300-member workforce is responsible for bringing vehicles to life by using aluminum to create thousands of engine blocks and transmission cases and housings every day. TMMTN produces up to 1.79 million engine blocks and 729,000 transmission cases and housings per year.
