

2023 Toyota bZ4X

November 17, 2021

As a leader in electrification, Toyota's introduction of bZ4X represents the first of a global series of battery-electric vehicles to be introduced under the global "Toyota bZ" brand umbrella. Once the rubber hits the road, bZ4X will have a manufacturer-estimated range of up to 250 miles for XLE front-wheel drive models.
