

2022 Toyota Avalon Hybrid

December 23, 2021

Image not found or type unknown

The Toyota Avalon Hybrid marks its tenth year for 2022. Toyota's second model with a hybrid variant was introduced for 2019 and built around the advanced Toyota New Global Architecture (TNGA). The high-strength TNGA is the ideal foundation for an exceptionally athletic luxury-sport sedan and the new XSE Hybrid

Nightshade Edition. With its four-cylinder Dynamic Force Engine married to an all-new Toyota Hybrid System II powertrain, it's been engineered to inspire both spirited driving and fuel consciousness. All Avalon Hybrids now come standard with Toyota Safety Sense 2.5+, so drivers can squeeze out more MPG with active safety all around.
