PLANO, Texas (Jan. 31, 2022) – Toyota auctioned two of the first i-FORCE MAX Tundras at Barrett-Jackson in Scottsdale, Arizona, over the weekend, resulting in more than \$1.2 million going to benefit the [Toyota U.S. Paralympic Fund](#).

The Toyota Tundra Capstone with VIN 001 sold for \$700,000. The Toyota TRD Pro with VIN 002 sold for \$550,000.

The Toyota U.S. Paralympic Fund is a first-of-its-kind program launched by the company in an effort to further support Team USA's Paralympic athletes as they pursue their sport dreams. To date, more than 430 U.S. Paralympic athletes and hopefuls have received direct support from the Fund, with contributions from across the

country, including from Toyota dealerships. With proceeds from the Toyota auctions at Barrett-Jackson, the Toyota U.S. Paralympic Fund has now raised more than \$4.9 million.

U.S. Paralympian Kaitlyn Verfuert, who received support from the Toyota U.S. Paralympic Fund, joined Toyota on the auction block both nights.

“I never thought in my wildest dreams that I would help Toyota auction off a Tundra for \$550,000!” says Verfuert. “These funds will go directly to help Paralympic athletes train, have proper equipment and have access to the best coaching. This type of support is life-changing, and I cannot thank Toyota enough for helping me go more places than I’ve ever imagined.”

Each winning bidder will also receive:

- A Toyota-hosted trip for two to Park City, Utah, for an exclusive program to cheer on the Team USA athletes who will be competing at the Paralympic Winter Games.
- A Tundra engine cover signed by chief engineer Mike Sweers.
- An exclusive framed print of the original Tundra styling sketches from Caltly (Toyota’s North American design studio), signed by Caltly president, Kevin Hunter, and Tundra exterior designers, Adam Rabinowitz and Chung Lee.

Vehicle specs for each truck auctioned off can be found [here](#).

*The auction-winning vehicles will not be immediately available and will be delivered in spring of 2022.
