

# Toyota is conducting a safety recall involving certain Toyota and Lexus vehicles

April 13, 2022

**PLANO, Texas (April 13, 2022)** – Toyota is conducting a noncompliance safety recall involving certain Toyota Venza, Mirai, RAV4 Hybrid, RAV4 Prime, Sienna HV, Highlander HV and Lexus LS500h, LX600, NX350h and NX450h+ vehicles in the U.S. Approximately 460,000 vehicles are involved in this recall.

A software error can cause the Vehicle Stability Control system (VSC) not to default to ON the next time the car is started under certain circumstances. This can result in a noncompliance with applicable regulations in the U.S.

For all involved vehicles, Toyota and Lexus dealers will update the software of the Skid Control ECU free of charge to customers.

Owners of involved vehicles will be notified by the middle of June 2022.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall) or [nhtsa.gov/recalls](https://nhtsa.gov/recalls) and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles and Lexus Brand Engagement Center (1-800-255-3987) for Lexus vehicles.
