

2023 Toyota Tundra

May 17, 2022

The all-new 2022 Toyota Tundra full-size pickup debuted last year after great anticipation. The third-generation Tundra made an immediate impact on the segment, thanks, in part, to its two new twin-turbo V6 powertrains, the most powerful of which surprised many since it is a hybrid. Already offering a wide array of choices and options, the 2023 Tundra enters the new model year a new SX Package that offers an updated appearance without a hefty price tag.
