

2023 Toyota Venza

November 09, 2022

Image not found or type unknown

The Toyota Venza, offered exclusively as an EPA-estimated 39 combined MPG hybrid, brought a fresh approach to premium style and comfort in the midsize CUV segment when it arrived for 2022. Now, for 2023, Venza's unique style gets an extra infusion of coolness with the new Nightshade Edition. Based on the XLE trim

level and available in three exterior colors, all featuring blackout trim for a distinctive presence, the Venza Nightshade joins other Toyota models in offering this bold treatment.
