

# Toyota Recalls Certain 2022 and 2023 Tundra Models

March 03, 2023

**PLANO, Texas (March 3, 2023)** – Toyota is conducting a safety recall involving certain 2022 and 2023 Tundra vehicles in the U.S. Approximately 130,000 vehicles are involved in this safety recall. Some of the subject vehicles may be equipped with an optional Toyota genuine truck bed accessory tonneau cover that can detach from the vehicle while driving. A tonneau cover that detaches from a vehicle could increase the risk of a crash or injury.

Owners of the subject vehicles will be sent a notification requesting them to confirm if the optional Toyota genuine truck bed accessory tonneau cover is equipped on their vehicle. If their vehicle is equipped with the subject tonneau cover, they will be instructed to remove the cover until the remedy is available and implemented. Owners will be contacted again when the remedy is available.

Owners of involved vehicles will be notified by late March 2023.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall) or [nhtsa.gov/recalls](https://nhtsa.gov/recalls) and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles.
