Tim Hollander

Tim Hollander serves as group vice president of Region 3 for Toyota Motor North America and president of Toyota Motor Manufacturing, Canada Inc. He is responsible for Toyota's automotive manufacturing operations in Canada. This includes the two assembly plants in Cambridge and the one assembly plant in Woodstock, Ontario, which produce the gas and hybrid models of the Toyota RAV4, the Lexus RX, and the Lexus NX.

Prior to assuming this position, Hollander was president of Toyota Motor Manufacturing, Indiana (Toyota Indiana) which assembles the Toyota Sienna, Highlander, Highlander Hybrid, Grand Highlander, and Lexus TX.

Hollander joined Toyota in 1998 as a production control analyst at Toyota Indiana and has held various positions of increasing responsibility, including a two-year assignment as general manager at Toyota Motor Manufacturing, West Virginia, vice president of Administration and then vice president of manufacturing at Toyota Indiana before being named the president of Toyota Indiana.

Hollander holds a Master of Science in Strategic Leadership from the University of Charleston.
