

Tim Hollander

Tim Hollander is honored to serve as president of Toyota Motor Manufacturing, Indiana, Inc., (TMMI) where he leads all production and administrative functions at the manufacturing facility in Princeton, Indiana, that assembles the Toyota Sienna, Highlander, Highlander Hybrid, Grand Highlander, and Lexus TX.

Previously, Hollander served as vice president of manufacturing at TMMI and was responsible for all production, plant engineering, Toyota Production System (TPS) and maintenance operations.

During his tenure with Toyota, he has held positions of increasing responsibility including general manager of administration at Toyota Motor Manufacturing West Virginia, Inc., and general manager of human resources and safety at TMMI. Hollander joined Toyota in 1998 as a Production Control Specialist.

Additionally, Hollander serves on several boards, including the Indiana Manufacturers Association, Evansville Regional Economic Partnership, Southwest Indiana Regional Development Authority, and the advisory council of Youth First.

Tim holds a Master of Science in Strategic Leadership from University of Charleston and is a native of Evansville, Indiana where he resides with his wife and two children.
