

2024 Toyota Corolla Hatchback

December 08, 2023

Image not found or type unknown

The 2024 Toyota Corolla Hatchback combines fun and striking looks with Toyota's latest technology and Toyota Safety Sense 3.0. It's 2.0-liter Dynamic-Force engine delivers exuberant performance with 169 horsepower and 151 lb-ft. torque. A sport drive mode and paddle shifters come standard on all Corolla

hatchbacks, giving the driver a sportier more fun-to-drive experience behind the wheel. For the latest model year, the Corolla Hatchback is also bringing back the Nightshade Special Edition heightened by bold, blackout accents.
