

# Toyota Recalls Certain 2020-2022 Toyota and Lexus Vehicles

December 20, 2023

PLANO, Texas (Dec. 20, 2023) – Toyota is conducting a safety recall involving certain 2020-2022 Toyota and Lexus models in the United States. Approximately 1 million vehicles are involved in this recall. Included subject vehicles are in the table below:

Image not found or type unknown

The subject vehicles have Occupant Classification System (OCS) sensors in the front passenger seat that could have been improperly manufactured, causing a short circuit. This would not allow the airbag system to properly classify the occupant's weight, and the airbag may not deploy as designed in certain crashes, increasing the risk of injury.

For all involved vehicles, Toyota and Lexus dealers will inspect the OCS sensors, and, if necessary, replace them at no cost to owners. For all involved vehicles, Toyota will notify customers by the middle of February 2024.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall) or [nhtsa.gov/recalls](https://nhtsa.gov/recalls) and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles. Customer support is also available by calling the Lexus Brand Engagement Center (1-800-255-3987) for Lexus vehicles.
