

ExxonMobil and Toyota Work Together to Demonstrate Lower Emission Fuel Performance

May 10, 2024

Image not found or type unknown

Toyota and ExxonMobil recently conducted public road tests with ExxonMobil's innovative, lower greenhouse gas emission research fuels in Toyota's advanced engines and vehicles as part of an ongoing program, [as announced in 2023](#).

Program results have demonstrated that these research fuels can be compatible with today's vehicles and have the potential to use existing infrastructure.

For more information and to see a demonstration of the progress, please watch the video below.
