

Toyota Recalls Certain 2023 and 2024 Sequoia Vehicles

August 26, 2024

PLANO, Texas (Aug. 26, 2024) — Toyota is conducting a safety recall involving certain model year 2023-2024 Sequoia vehicles in the North, Central and South America as well as the Middle East. Approximately 45,300 vehicles are involved in this recall in total, with approximately 43,400 in the U.S.

The resin tow hitch cover could separate from the rear bumper of the vehicle while driving and potentially become a road hazard, potentially increasing the risk of a crash.

For involved vehicles, Toyota dealers will replace the resin tow hitch cover with an improved one, free of charge.

Owners will receive notification advising them that they can mitigate the risk by removing the cover until the improved cover is available.

Customers will be notified about this issue through the mail by late October 2024.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall) or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles.
