

2025 Toyota Highlander

September 17, 2024

Image not found or type unknown

In April of 2000, Toyota revealed the first-ever Highlander, a new class of midsize SUV built on a platform that was shared with the Toyota Camry. With car-like handling, an elevated ride height, and spacious SUV versatility it quickly became a popular model in the Toyota lineup. For 2025, Highlander keeps on going places with its

2.4-liter Turbo Powered gas model, available in a choice of Front- or All-Wheel Drive. With a spacious, well-appointed, high-tech interior it provides comfort for up to eight people, making any journey an elevated experience.
