

Toyota Recalls Certain 2023-2024 Toyota Corolla Cross Hybrid and 2023-2025 Corolla Hybrid Vehicles

September 20, 2024

PLANO, Texas (Sept. 20, 2024) — Toyota is expanding a September 20, 2024 safety recall to add certain Corolla Hybrid vehicles produced from May 2022 to November 2024. Approximately 103,000 vehicles in the U.S. are added in the expansion. Previously, 42,000 Corolla Cross Hybrid vehicles produced between June 2022 to September 2024 were included in the recall.

In certain situations, during brake application when turning a corner, a driver may temporarily experience a hard brake pedal that can cause the stopping distance to be more than expected. This can increase the risk of a crash.

For all involved vehicles, Toyota dealers will update the programming of the skid control ECU software for the brake actuator, free of charge.

Owners of involved Corolla Cross Hybrid vehicles will be notified by late November 2024, and owners of involved Corolla Hybrid will be notified about this issue by late January 2025.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall) or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles.
