

# Toyota Recalls Certain Model Year 2023-2024 Toyota Corolla Cross Hybrid Vehicles

September 20, 2024

**PLANO, Texas (Sept. 20, 2024)** — Toyota is conducting a safety recall involving certain Corolla Cross Hybrid vehicles produced from June 2022 to September 2024. Approximately 42,000 vehicles in the United States (approximately 51,000 vehicles in North America) are involved in this recall.

In certain situations, during brake application when turning a corner, a driver may temporarily experience a hard brake pedal that can cause the stopping distance to be more than expected. This can increase the risk of a crash.

For all involved vehicles, Toyota dealers will update the programming of the skid control ECU software for the brake actuator, free of charge.

Owners of involved vehicles will be notified by late November 2024.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall) or [nhtsa.gov/recalls](https://nhtsa.gov/recalls) and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles.
