

# Toyota Recalls Certain Toyota and Lexus Vehicles

January 29, 2025

**PLANO, Texas (Jan. 29, 2025)** — Toyota is conducting a safety recall involving certain 2023 model year Toyota and Lexus vehicles in North America. Approximately 1,700 vehicles are involved in the recall for the U.S. from the following product lines – Toyota Corolla, Corolla Cross, Corolla Cross Hybrid, Highlander, Highlander Hybrid, Tacoma, Lexus NX 250, NX 350 and RX 350 vehicles.

The affected vehicles may not have been correctly inspected in a prior recall to determine if a replacement of the spiral cable assembly in the steering column that controls the driver's side airbag was needed. A loose connection in the spiral cable can cause the airbag warning light to illuminate, and the driver's airbag may not deploy in a crash. As a result, the vehicle will not comply with a federal safety standard and may increase the risk of injury to the driver in the event of a crash.

For all involved vehicles, Toyota and Lexus dealers will inspect the serial number of the spiral cable with an improved process and, if necessary, replace it with a new spiral cable at no cost to customers.

Owners of these vehicles included in the recall will be notified by late March 2025.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall), [Lexus.com/recall](https://lexus.com/recall), or [nhtsa.gov/recalls](https://nhtsa.gov/recalls) and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles, or the Lexus Guest Experience Center at 1.800.255.3987 for Lexus vehicles.
